IRONKEY WORKSPACE

Windows 8 Compatible

WINDOWS TO GO CERTIFIED

Depend upon the only Microsoft-certified Windows To Go solution that delivers a true Windows® 8 desktop embedded on a trusted IronKey USB flash drive.

BENEFITS

Rely on Imation's portable desktop expertise and the proven dependability of Imation IronKey drives.

Deliver a fast, full Windows desktop that boots from USB and uses all host system resources.

Equip users to work anywhere using environments that mirror your corporate desktop.

Protect portable desktops with full disk encryption and password authentication.

Automatically protect data upon device removal.

Keep workers productive by deploying Imation IronKey USB flash drives that deliver up to 5X the Windows to Go minimum average read/write performance.

MOBILE DESKTOPS FOR A MOBILE WORKFORCE

Today's mobile workers—field personnel, consultants and teleworkers—need to be productive no matter where they go. They need a mobile computing environment that gives them access to corporate applications and data, without the burden or expense of lugging a laptop.

For many enterprises, that environment is Microsoft® Windows to Go™, a complete Windows® 8 Enterprise workspace that can be booted from a USB flash drive or other storage device to run on any PC, regardless of operating system. With Windows to Go, you can:

- Provide your users with an imaged and fully functional version of Windows 8
- Distribute mobile work environments that mirror your corporate desktop
- Ensure employees, partners and contractors are using mobile workspaces created and managed by IT

A CERTIFIED PLATFORM FOR WINDOWS TO GO

When working with corporate data and applications, however, not just any drive will do. That's why Imation developed IronKey Workspace—the only solution certified by Microsoft for Windows To Go™ that delivers a true Windows® 8 desktop embedded in a trusted IronKey USB flash drive.

IronKey Workspace builds on Imation's renowned leadership and expertise in providing complete mobile workspaces and hardened, reliable USB flash drives.

A COMPLETE WINDOWS 8 ENVIRONMENT

IronKey Workspace boots directly from a USB flash drive and delivers a fast, full Windows desktop. Employees can easily telework from home, consultants can work in multiple locations, and field personnel can access their corporate desktop from virtually any PC.

IRONKEY TOUGH

IronKey Workspace drives undergo thousands of hours of rigorous read/write tests to help ensure users are getting a USB flash drive they can count on. And because nobody knows mobile like Imation, this go-anywhere solution is encased in a sturdy chassis that's resistant to water, dust and shocks to help protect the drive and its contents from the elements.

IRONKEY WORKSPACE

IRONKEY FAST

Equip mobile workers with a reliable IronKey Workspace drive that delivers up to five times the minimum read/write performance requirements for Windows To Go devices. Users will get sequential read performance averaging up to 300+ MB/second and sequential write speeds averaging from 100 to 200+ MB/second.

PASSWORD PROTECTED AND ENCRYPTED

Control access to your company's mobile Windows to Go desktops with built-in password protection capabilities and up to 256-bit AES full disk encryption. And with IronKey Workspace devices, data and applications automatically receive strong protection from breach and corruption the moment users remove flash drives from their host PCs.

EASY TO USE FOR MAXIMUM PRODUCTIVTY

The IronKey Workspace experience delivers a fast, full Windows desktop with full use of the host system's hardware and resources such as printers and network connections. The Windows To Go environment's minimal, intuitive interface gets employees working in no time.

A TRUE WORK-ANYWHERE SOLUTION

IronKey Workspace is compatible with almost every system, so users don't have to waste valuable work time hunting down the right host PC.

THE FIRST DRIVE IN A NEW IRONKEY WORKSPACE FAMILY

Additional IronKey Workspace solutions will offer military-grade hardware encryption, strong user authentication, optional identity management and crossover storage, a tamper-evident metal chassis and epoxy-sealed components, and optional central administration via the cloud-based Imation Enterprise Management Service.

TECHNICAL SPECS

CAPACITIES
32GB, 64GB, 128GB

PERFORMANCE
Max Average Read: 300+ MB/second
Max Average Write: 100-200+ MB/second

HARDWARE
USB 3.0 high speed

WATERPROOF
MIL-STD-810F

TEMPERATURE
Operating: 0°C, +70°C
Storage: −40°C, +85°C

OPERATING SHOCK
16G RMS

SECURITY FEATURES
Password protection
128-bit or 256-bit AES full disk encryption
Automatic data protection from breach and corruption upon device removal

DIMENSIONS
81mm x 21mm x 9mm

WEIGHT
0.7 oz (20 grams)

REQUIREMENTS
Microsoft Windows 7 or 8 certified PC
Windows not included
Requires Windows 8 Enterprise Edition
