**SATA HDD
Copy Station**

Integral Hard Drive Copy Station

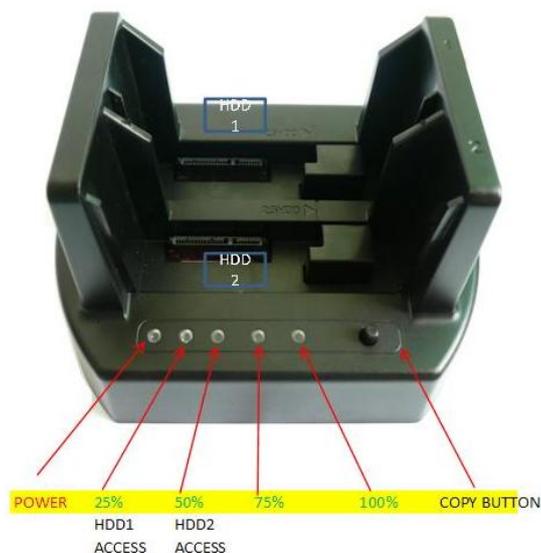

Make an identical copy of your hard drive at the touch of a button. No software or PC required. Ideal for back-ups, upgrading your hard drive (HDD) and switching to a Solid State Drive (SSD).

Easy to use - one button copy

Using the one button copy function it is far easier to copy from HDD to HDD or HDD to SSD and vice versa without the need for complicated PC software and cable configurations.

External storage device

The Integral Hard Drive Copy Station can also be used as an external storage device making it easier to transfer data to and from internal SATA 2.5" and 3.5" HDDs without having to install the drives inside a computer. The device easily connects to a computer via the USB 2.0 or eSATA cable provided.

Features

- One button copy – no software or connection to computer required
- Compatible with 2.5" and 3.5" SATA HDD and SSD
- Can be used as a external storage device with either internal HDD or SSD installed
- USB 2.0 and eSATA interface for quick and easy data transfer when used as external storage device

SPECIFICATIONS
